

Zhahenza Rhosta Alan Nawa

Bilingual Data Annotator (Indonesian–English)

Indonesian–English • Data Annotation • Excel • Quality Control

SUMMARY

Detail-oriented data worker experienced in handling high-volume datasets: collecting, categorizing, cleaning, and validating thousands of records with consistent accuracy. Native Indonesian speaker with working English, comfortable following long, complex guidelines and applying them consistently. Used to independent remote work with daily output targets, and to treating personal and client data as strictly confidential.

CORE SKILLS

Data Annotation	Content Evaluation	Data Entry & Validation	Bilingual Indonesian–English	Microsoft Excel	Attention to Detail
Quality Control	Independent Remote Work	Data Confidentiality	Legal Data Research		

RELEVANT EXPERIENCE

Large-Scale Dataset Collection & Cleaning — 1,000 Records (freelance data work)

Collected 1,000 catalog records across 50 paginated web pages, then cleaned and validated every row: standardized values, removed duplicates, and verified no missing fields.

Output: 1,000-row CSV delivered complete and error-free — the same collect-clean-validate pattern used in annotation pipelines.

Automated Price Monitoring Dataset — 999 Products (freelance data work)

Built and ran a repeated monitoring workflow tracking 999 products over time, with change reports flagging only items whose values actually shifted.

Output: review-ready change reports — experience with sustained, repetitive data-quality work against daily targets.

Legal Data Research (supported by a law degree)

Collected and organized court decisions, current regulations (JDIH), and legal documents from official sources into structured files for law-office and compliance use.

Output: structured legal datasets — experience reading long formal documents carefully and extracting exactly what is required.

EDUCATION

Master of Laws (S2 Hukum)

Universitas Dr. Soetomo Surabaya • 2021–2022

Bachelor of Laws (S1 Hukum)

Universitas Dr. Soetomo Surabaya • 2017–2020

WHAT I OFFER

- High accuracy on repetitive, high-volume tasks — validated output, no duplicates, no missing fields.
- Careful reading of long guidelines and consistent application, backed by legal training.
- Comfortable with daily targets, independent remote work, and strict data confidentiality.
- Clear communication on progress and blockers before deadlines.
